

## Additional Maps

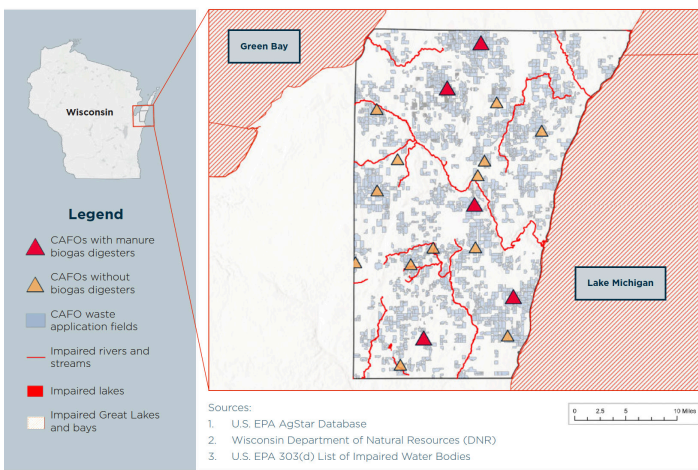

SRAP provided GIS support for several advocacy efforts and community support cases in 2024, including the following examples:

### Large Dairy CAFOs and Manure Digesters in Tulare County, California

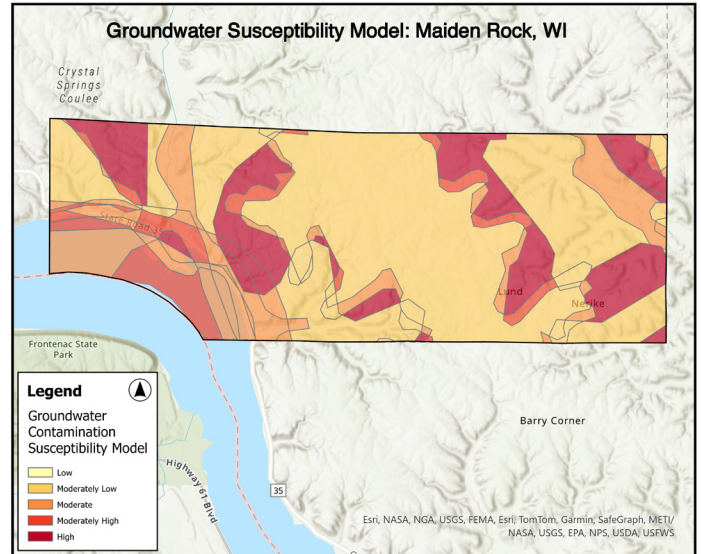

This map highlights the concentration of large dairy CAFOs and biodigesters in Tulare County, CA, created to support the SRAP/FOE report, *A Brown Cloud Over the Golden State: How Dairy Digesters Are Driving CAFO Expansion and Environmental Injustice in California* (mentioned below).

### Manure Biogas Digesters and CAFOs in Kewaunee County, Wisconsin

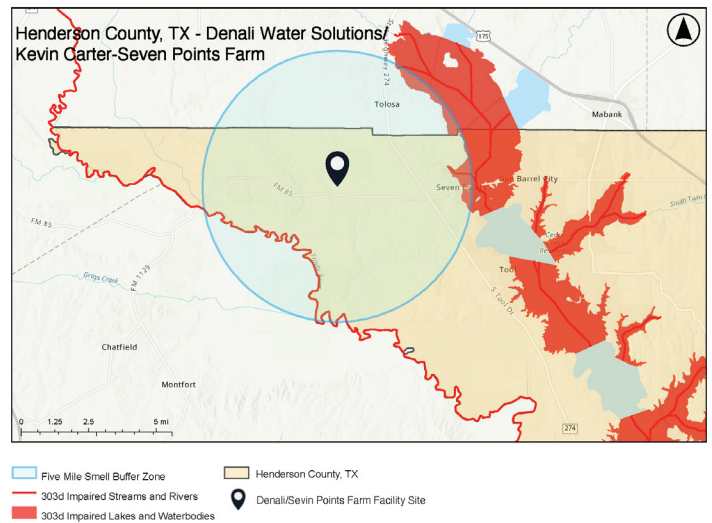

This map identifies the locations of CAFOs and digesters in Kewaunee County, WI, created to support the SRAP/FOE report, *Making a Bad Situation Worse: Manure Digesters at Mega Dairies in Wisconsin* (mentioned below).

### Susceptibility to Groundwater Contamination: Maiden Rock Township, Wisconsin:

This is one of a series of maps SRAP created to support a CAFO ordinance in Maiden Rock Township, WI, which passed in December 2024.

### Henderson County, TX Impaired Waters

We produced this map to help community groups show the proximity of impaired waters to the proposed location of a Denali processing facility. Community groups ultimately defeated the permit application.
